

# First Utility broadband

## Competitor Comparison Details - First Broadband

Our price comparisons are based on a customer taking unlimited standard broadband (up to 17Mbps) for 18 months and take in account:

- Connection Charges
- Router delivery charges
- Upfront charges
- Monthly charges for broadband
- Monthly charges for line rental

The table below shows the total cost of 18 months unlimited broadband with each of the major providers and the saving a First Utility Energy customer can make with First broadband. Non-energy customers will pay an additional £9 over 18 months.

Company	Product	Minimum Term	18M cost	18M saving
